

**MECHANICS & MATERIALS PROGRAM, ENGINEERING DIRECTORATE,
NATIONAL SCIENCE FOUNDATION**

Dr. Ken P. Chong

Director of Mechanics & Materials Program, Engineering Directorate,
National Science Foundation
kchong@nsf.gov
703-292-5111

Dr. Ken P. Chong is the Director of Mechanics & Materials Program, Engineering Directorate for the National Science Foundation. Dr. Chong has served on key NRC, FCCSET and NSCT committees. He recently developed a major multi-agency's initiative on durability of materials. Dr. Chong also takes on the responsibility of serving on the Nano Science & Engineering initiative. Dr. Chong initiated several workshops on research needs in solid-mechanics, structures and nanomechanics. In 2002 he presented an ASME webcast on nanomechanics. He is the author of two hundred papers, ten books and twenty keynotes.
